

DGroup Project Campaign Guidelines

The DGroup Project Campaign is part of the GLC3 LEAD LifeApp requirement. This activity is designed to help trainees engage people effectively, plug them into Dgroups, support the Each One – Raise Four vision, and encourage the multiplication of DGroups.

Objectives:

1. The goal of the DGroup Project Campaign is to encourage trainees and their Timothies to actively engage in discipleship, evangelism, and outreach through meaningful ministry projects.
2. To conduct your DGroup Project Campaign in your area so that you can more easily connect with, disciple, and follow up with those who participate. This can help create lasting opportunities for ministry and spiritual growth.

Who Can Participate:

A maximum of three (3) GLC3 LEAD co-trainees may work together on a single project. Timothies should be actively involved as part of the learning and mentoring process, and DGroup members are also welcome to participate and serve alongside them.
